Mount Airy, NC

Houston, TX

March 13, 2024

Dear Valued Customer:

As a result of continued increases in raw material feedstock, transportation, and energy, NCFI Polyurethanes systems have increased in cost. Effective April 12, 2024, NCFI will implement a \$0.12/lb increase on all Closed Cell, Open Cell, and Roof Spray Products.

Materials shipped after April 12, 2024, will be invoiced at adjusted prices.

NCFI remains committed to providing quality spray polyurethane foam systems, delivered with exceptional service from the most experienced professionals during these most difficult times.

NCFI appreciates your understanding and your valuable continued business. Please contact your account manager if you have any further questions.

Regards,

NCFI Polyurethanes

A handwritten signature in black ink, appearing to read "Mitch Clifton". The signature is fluid and cursive, with a long horizontal stroke extending to the right.
